Professional Summary:

Motivated Full-Stack Developer skilled in modern TypeScript-based web apps using Next.js, Prisma, PostgreSQL, React, and Node.js. Built multiple end-to-end projects with SSR, API routes, secure auth, and optimized deployment. Quick learner ready to deliver clean, scalable code in team environments.

Technical Skills:

- Front-End: Next.js (App Router), React.js, TypeScript, Tailwind CSS, HTML5, CSS3, JavaScript (ES6+)
- Back-End: Next.js API Routes/Server Actions, Node.js, RESTful APIs, NextAuth.js / JWT
- Database: MongoDB, PostgreSQL, Prisma ORM
- Tools: Git/GitHub, VS Code, Postman, Vercel, Netlify, Zod (validation).

Projects:

TripMingle - Travel/Trip Planning App (Next.js + TypeScript + Prisma + PostgreSQL)

https://github.com/muntasir010/TripMingle_Frontend | <https://tripmingle.vercel.app>

- Implemented JWT-based authentication, handling 100+ test users, itinerary creation, and sharing features.
- Reduced API response time by 30% using Prisma optimization, migrations, and data relations.
- Implemented SSR/ISR in Next.js for performance; responsive UI with TypeScript safety.
- Deployed to Vercel with secure auth and optimizations.

PayKotha - Payment App (React + Express.js + MongoDB + Node.js)

<https://github.com/muntasir010/PayKotha-Frontend> | <https://paykotha.vercel.app>

- Developed a full-stack app for payments and chats with user accounts, transactions, and messaging.
- Created RESTful APIs in Express.js/Node.js; stored data in MongoDB with CRUD operations.
- Built a dynamic front-end with React for real-time updates and form handling.
- Focused on secure authentication and responsive design; deployed to Vercel.

Education:

Bachelor of Social Science (2022 - present), Feni Government College, Feni, Bangladesh.

Certifications:

- Next level Web development (L2) by Programming Hero Bangladesh - Verification: <https://web.programming-hero.com/verification?validationNumber=PHL2B5WEB8-41911135>

Additional:

- **Languages:** Bangla (Native), English (Fluent)
- **Interests:** TypeScript ecosystems, serverless, open-source.
